MERCHANTS SAVING INSTITUTION

FOR ALL

Consumers of Ink.

The undersigned begs to inform the highly respected community of this city and the country, that he has established an

INK MANUFACTORY.

No. 50, Calle 25 de Mayo.

And is prepared to sell as good Ink, as any made in any part of the world, and warrented to stand its test just as well as that which it has at present under used, at 50 p.% less than the same can be bought at any other house.

People under the impression, that they can buy their Ink at a great deal cheaper English Ink, can have the same just as well, that most of the Ink sold for Engraving is made in this country, and not imported as the public seems, but I am ashamed to put my own name on the labels, being only consumers of Ink, and I feel much superior qualities, and proceed more virtuous in the use of the Inks.

Bring back a copy each book at the moment when used.

H.—Retail as wholesale.

I will also be ready with the powders N.—A specimen of the eyes to the pen, which have not to write at night, because they need more force than enough, as we see they have sufficient.

For the reasons explained, I hope to a long share of public favor, and I request Home Merchants to write to the best trade, and all I ask is, to try the Ink before they write to others in the country and the country, in case of Home Troubles.

WEDNESDAY, MARCH 11, 1868.

THE CLUB BUENOS AYRES.

It would be doing a manifest injustice to the gentlemen who assembled at Colon, on last Sunday, to suppose they had any connexion with the celebrated council of Four in the Legislative antechamber. Some of the former were as ignorant of the premature intrusion of these gentlemen as the porter is said to have been; and all shewed their good sense by excluding from the Conference the four individuals who elected themselves candidates for parliamentary honors. Pr bably the literary quartette were more ashamed of their freak in the Senate-house, than of any of their subsequent productions, and, as we believe, two of them abstented themselves. In electing the committee, there was not such unanimity at Colon, as prevailed at the ante-chamber hence we regard it as a bona-fide meeting. Some of the members were rudely handled, Mr. Ferre Hornos, Martinez de Hoz, Otamendi, and others being vigorously supported by one party and opposed by the other. At length the list was framed—President, Sor. Gainza; Members, Messrs Hornos, Orma, Garcia, A. Alsina, Quintana, Varela, Forrest, Marmol, Conesa, Otamendi, & Martinez. It was resolved to accept the parochial lists of candidates for the coming elections.

Hence it will be seen that the editor of our evening journal and his three friends, elected nothing by their strange conventicle, except so far as making themselves the object of public derision.

SPANISH AMERICA,

Some of the Spanish republics are incorrigible "rowdies," and bring disgrace both on the American continent and democratic Government. Notwithstanding the French occupation of Mexico, the diminutive neighbours of San Salvador and Guatemala are preparing for a quarrel, the motives for which can only be found in that pugnacious disposition which incites every military demagogue to fancy himself an Alexander or a Hannibal. It would be well to send out 5-0 policemen, from Cork or Southampton, to keep the peace in those delightful regions, and prevent the Salvadorians and Guatemalians from playing the tragedy of Horatii and Curatii.

Venezuela has at length come to the conclusion that gun-cotton is not so beneficial as the cultivation of the raw material, and orders on England are no longer for Minies or Whitworths, but for Macarthey guns. In some places the Federal rebels still give trouble, but advices from Caracas represent the stability of order and Government.

New Granada, Costa Rica and Honduras are at peace, but there is a great feeling of agitation in Nicaragua and Panama. The revolution of Quito reported by last mails is contradicted, ten and foster a good feeling amongst us and we have reason to hope that Ecuador will not give us another alarm for at least six months. Things look strange in Peru: the President pretends he is dreadfully alarmed by the Spanish scientific expedition, and demands earnestly full powers," in order to defend the republic from any *coup de main* of France or the Peninsula. Bolivia has had its usual monthly revolution which passed off pleasantly: the hero was Ballivian, relative of a former President and the inhabitants of La Paz quietly handed him over to General Agreda who occupied the city with 100 dragoons and 2 pieces of cannon.

There is no news from Chile, which leads us to infer that republic is getting on as well as any be expected.

MONTEVIDEO.

The Chambers are occupied with a variety of projects, for immigration, public lands, church building &c. The medical board is visiting the prison and apothecary-shops. A new bull-ring is about to be erected by Sr. Dunn. Mr. Wm. Jupe, Englishman, aged 38 is found in the mortuary list of the 7th inst. The *Siglo* publishes an Imperial amnesty to all deserters from the Brazilian navy. An Italian dramatic Co. is playing at Solis: the Ocean Circus is well attended. It is said that the Colon Co. is about to visit Montevideo, when Juan Valjean [of unlucky memory] will be reproduced, for the Oriental public. A large number of military commanders is assembled in the capital to confer, on the coming presidential elections. The press-law seems to be enriched through the Legislature. One Cayetano Delgado was assassinated at Canelones on the 1st inst. Col. Estomba with 42 rank and file arrived in M. video, on Saturday from Salto, per S. S. Libertad.

The Hanoverian schooner Hermann arrived on the 8th, with cargo of liqueurs, to Rosenthal Gayen. The Britannia, Ann Banfield sailed for England on the 7th with produce.

The British clerks held a meeting on Wednesday night. Some political pasquinades are flying about the city.

EDITOR'S TABLE.

The unfortunate captain of the Alsina Battery, it seems, was be ught on shore alive, but, owing to the neglect of those who left him on the stairs of the mole, he expired. This is truly a sad case. Had a doctor been brought in time, there cannot be the slightest doubt the man's life would have been saved. It is really to be regretted that such scandalous neglect be allowed to pass unnoticed by our colleagues. We demand that an inquiry be made in to this matter. A gentleman has informed us that the captain-by his nearly an hour on the mole, and died from sheer want of restoratives. The Captain of the Port should be made to explain the matter.

Mr. Oliver the Belgrano judge is becoming quite a celebrated character we refer our readers to a communication on from a subscriber in another column, we notice the Club house has been at last brought to the hammer, this is a melancholy proof of the growing unpopularity of the place.

If the English and Scotch residents in Buenos Ayres are willing to allow their national festivals to pass unnoticed Irishmen at least are determined not to follow the example. A select number of invitations have been sent round town this morning, for the St. Patricks dinner at the Louvre. Owing to unavoidable circumstances the invitations have been sent out rather late and many parties who would willingly attend may not have received any invitation, to meet the energe ney we beg to state that any gentleman wishing to attend will please forward his name and address to the Standard office. It is with much pleasure we have to remark that many of our private and English and American merchants have promised to attend. We trust this 17th March will be a good beginning and that our English and Scotch friends will not forget St. George and St. Andrew. Commemorative dinners are home customs which we should be sorry to see forgot ten: they tend to harmonize nationali ties and foster a good feeling amongst us all.

There is a sort of flying report that Mr Coghlan's Port project is about to be taken up at last by the Government. Although ignorant of the peculiar merits of the scheme, we hope the report is true Saturday evening's disaster is yet fresh before our eyes. If Mr Coghlan's proposed harbour and docks were in existence, such accidents would be unknown.

The lady who was thrown from her horse on the Retiro road, on Sunday last, is, we are happy to say, recovering. We understand she is Anglo-Saxon.

A grant for the municipal cash-book reveals strange truths. Out of the very grave this august body draws a handsome stipend. Who would believe that the Municipality of this enlightened city writing, as it were, even from our very sobs 18,000 paper dollars per month. Out upon it! The amount of bills for light ing the city appear very heavy—over 143,000 per month. This seems a most outrageous charge, and we trust that the Municipal auditors (if these are such officers) will look into the accounts.

The Gustavo Pastor will positively start for Antwerp on the 16th, taking mails for Europe and the States. We understand that one of our leading wool buyers goes in her to Europe. We wish him a pleasant voyage, and hope that he will soon return to the region of the Once Setiembre.

The Provincial Chambers me. yesterday but we have not heard what they did. It is announced in the Government has sent in a bill for the reformation of the currency, and the legalising of foreign specie payments

Messrs Chamberlain and Minturn dissolved partnership yesterday, owing to important business requiring Mr C's presence in the States. Mr Minturn will carry on the business in his own name.

Mr Peagine's sale of rums on the 20th instant at his estancia in the Banda Oriental is attracting general attention. It is a mistake however to suppose that this is a mere sale of anything of a high kind, it is only following out the plan which is adopted in all sheep-farms in Germany—M. P. has acquired a reputation for it as the best judge of rum in our labour. We understand that a certain German gentleman who knows more about these things than what we had fel on for a month and the camps were consequently very dry. We believe however that this will not be the case in general, all over the country as the rands both North and South are in a frightful state.

The Commissioner from Concordia has at last returned. Waldino Urquiza was summoned and examined he swore that the whole thing was an outrageous fiction and that if any parties did shoot death to the Unitarios, they did it solely to answer or annoy some individual but without meaning the slightest insult to the National Gov. which all parties in Concordia love honor and obey.

There has been another call on the stockholders of the San Juan mines payable in the Mauá Bank.

The Government has ordered the renting of 100 leagues of land on the frontier. We are at a loss to know the motive. Scrnery or accessibility of Government land, if he risked his life in going out to live on it, still his squatter's right was of considerable of value—now it is an encumbrance, for the owner is obliged to pay to the Government double what the land is worth. Squatters are running about everywhere, trying to sell out: but—to use the words of our London correspondent, on a memorable occasion—the cow is milked dry."

A TRIP TO BELGRANO.

The fine weather of Sunday I d us involuntarily towards the station of the Northern Railway, for the purpose of taking a little fresh air in a trip to Belgrano. The half-past three o'clock train started with a punctuality worthy of notice, and after a journey of 20 minutes, we arrived in the fashionable town of Belgrano.

The first sight that met our eyes, on ascending the hill, was the wholesale arrest, under pretence of their having galloped in the streets, of a whole company of foreign sailors—poor fellows, who perhaps understood the management of a vessel well enough, but found it rather a more difficult thing to guide thorough-breds from a livery stable, after having once turned their noses homewards.

They soon returned, however, in good humour, without having paid any penalty, as the evidence proved that they had only galloped down the barranca, and the most severe of the police seemed to be quite satisfied with having taught them the necessary respect for the authorities of Belgrano.

Belgrano looks rather ludicrous at the present time; holiday-riders going at a funeral pace, while the streets are crowded with galloping policemen in search of prey.

Remembering the punctuality in starting of the train from Buenos Aires, we took our seats in time. Being fond of our Havanna cigar, by the notice on one of the carriages—"e Salon para fumar," we were induced to make use of this comfortable compartment, in the idea of passing the time required for the return journey under the consoling influence of tobacco. We were soon to repent this temerity on our part.

On the top of these smoking saloons there are seats for the use of passengers, who prefer travelling outside to inside, and on this occasion some high-spirited gentlemen [!] had taken possession of the same, and soon gave notice of their presence by all possible means in their power.

With great energy and per everance these outsiders, by making good use of feet, sticks, and lungs, soon got up a concert, which was anything but musical. The noise increased every minute, and as the the train did not start till about 40 minutes after the time appointed, ample time was afforded for the development of the musical genius of these spirited gentlemen on the roofs who, being supported by other lively spirits, of their own stamp, stationed on the platform, so we brought the noise to such a pitch, that we were just on the point of getting out of the train, with the intention of remaining the night in Belgrano.

We should be sorry to believe that such shameful proceedings are overlooked by the authorities in Belgrano, for the purpose of inducing people to make their trip on horseback, and thus increase the income they derive from galloping licenses. But no one would almost believe such to be the case, from the fact that several police men were in the immediate vicinity of the station, without interfering. To conclude this chapter, the gentlemen who had committed an act of indecency, which calls for some investigation.

As for galloping sailors in Belgrano there appears to be no end have, while acts of such flagrancy as the above appear to be unimportant to attract the attention of the legislators of Belgrano. This was our trip to Belgrano, and the moral of it is—Don't go to Belgrano by rail, nor on horseback: if you are not rich enough to buy a carriage, stop at home.

NEW ASSOCIATION.

TO THE EDITOR:—Some talk has been current lately among the young men of the town, relative to the establishment, of a society to be styled the "Tea and Buttered Toast Association."—This may be merely the name applied to it by some satirists who must unkindly poured cold water on the idea, and thus drowned the miller before the first cup was brewed.

This resulted I imagine from the fact of the scheme not having been more explicitly laid before them, and I would beg through the medium of your columns that this should now be done as the matter is deserving of notice, and no doubt arose from the unexplainable silence of Good Idea in the Debating Society.

Tea is conducive to eloquence, and I would further suggest, not wishing it to be con-idered impertinent to the originators of the plan, that hot potatoes should be introduced towards the middle of the evening; they would go do wn well together with the Attic salt of which there would always be a goodly sprinkling.

Care should, however, be taken, that the contents of the teapot should not be mixed à la Mrs Gamp, as the meeting would then often find itself too freely opposed.

Rather than risk such an event, twould be better to make a strong brew of gunpowder, and explode the whole matter.

THE LARGEST HOTEL IN THE WORLD.

It was generally supposed that the New York hotels were large enough to gratify the expansive desires of any reasonable individual. But the "Fifth Avenue," "St. Nicholas," "Metropolitan", "Everett," and "Astor," are exextensively out-distanced by the enterprising West. The "Lindell Hotel," at St Louis, Mo., began some time since but now recently finished, is the largest hotel in the world. It is equivalent to eight stories high; contains 515 rooms, 21 parlours, 27 acres of plastering, 7 acres flooring, 32 miles of bell wire, 9 1/2 miles of base board 12 miles of gas, steam, and water pipes 1 1/2 miles of passages, 810 windows 14,000 feet of painted imitation cornice. In the basement, there is a railway running the entire length, for the transportation of heavy articles; and above are two steam elevators for lifting fuel and luggage from the ground to the floors above.

PLEASURE TRIP.—Those who went in the Paysan to the Island have seem to be well pleased with their trip, tho' it is probable another excursion would be well attended.

CORDOVA RAILWAY. Several merchants of Rosario who are creditors of the National Government to the extent of three millions silver dollars, have agreed to devote that amount to shares in the Cordova Railway, if Government will provide for their interest and mortizement payable in London into the hands of the company.

The measure is useful, because it will make the payment of the public debt directly applicable to the construction of the road in no small amount £650 0 0 per chesbants.

AMBER TEETH SETTING.

156—*Calle Cuyo*—156.

Charles E. Krauss sets teeth by a new invention, much more durable and superior to every other mode. It accommodates itself to the gums and palate much better than gold, whilst requiring springs. A set of teeth in amber, after two days, serves for mastication, speaking, and lasts a life time.

My collection of natural teeth is very fine, and cannot be distinguished from a natural set. I will also clean teeth with great care.

I have a number of instruments for extracting roots of teeth, also for stuffing the same with gold, silver &c., which I guarantee for a number of years.
